VACCINE ADVERSE REACTIONS

Because influenza vaccine contains only non-infectious purified viral proteins, it cannot cause influenza. An occasional case of respiratory disease following immunization represents coincidental illnesses unrelated to influenza immunization. Most people who receive the vaccine either have no reaction or only mild reactions. **Mild Problems:** Soreness, redness, or swelling where the shot was given. Hoarseness; sore, red or itchy eyes; cough, fever, aches, headache, itching, and fatigue. If these problems occur, they usually begin soon after the shot and last 1-2 days. **Severe Problems:** Life-threatening allergic reactions from vaccines are very rare. If they do occur, it is usually within a few minutes to a few hours after the shot. The safety of vaccines is always being monitored. CONSENT FOR VACCINE ADMINISTRATION

I have read the adverse reactions section above associated with the vaccine(s) being administered. I have had the opportunity to ask questions about these immunizations and I have been offered a copy of the Vaccine Information Statement (VIS) for the vaccine(s) being administered. I ask that the immunization(s) be given to me or the person named below for whom I am authorized to make this request. For myself, my heirs, executors, personal representatives and assigns, I hereby release LabCorp Employer Services, Inc. ("LES") and the site location where I receive this immunization, and their respective affiliates, subsidiaries, divisions, directors, shareholders, members, managers, contractors, agents and employees, from any and all claims arising out of, in connection with or in any way related to my receipt of this or these immunization(s). LES and the other aforementioned parties shall not at any time or to any extent whatsoever be liable, responsible, or in any way accountable for any loss, injury, death or damage suffered or sustained by any person at any time in connection with or as a result of this vaccine program or the administration of the vaccines described above. I believe the benefits outweigh the risks and I voluntarily consent to receive this or these immunizations assuming full responsibility for any reactions that may result. I understand that I may be asked to remain in the general area for at least 15 minutes after receiving the vaccine and that I should report to LES any immediate adverse reactions I experience during this time. I understand LES will not give me medical advice and that I must seek such advice from my own physician.

If I am not the patient and am signing this Consent Form as the patient's legal guardian, durable power of attorney for healthcare, or qualified healthcare surrogate (as defined by state law) (each a "Patient Representative"), I acknowledge that I have full authority to sign on behalf of the patient and maintain all appropriate appointment/governing documentation (e.g.: Durable Power of Attorney for Healthcare/ Finances, Letters Testamentary/Administration, Guardianship Orders, etc.).
